

Genetic Testing

Order Request Checklist for Reproductive and Prenatal Testing

When entering an order request for reproductive or prenatal testing, the following information may be requested.

- Test that is being requested
- Who is ordering the testing
- Clinical summary from genetic counseling appointment if completed
- Maternal and paternal ethnic backgrounds/race
- Pedigree or summary of three-generation maternal and paternal family history
- Summary of patient's clinical diagnosis/presentation including the following details:
 - Reproductive Carrier Screening
 - Genetic test results from previous genetic testing (e.g. cystic fibrosis, Tay Sachs, etc.)
 - Other lab results including CBC and/or hemoglobin electrophoresis
 - Prenatal testing
 - OB notes
 - Estimated date of delivery
 - Number of fetuses
 - Results from other screening (e.g. first trimester screening, maternal serum screening, etc.)
 - Ultrasound results
 - Previous genetic testing results if testing is requested for a familial condition
