

Medical Oncology Drug Regimen Abbreviations

The following regimen abbreviations can be entered on the drug entry screen during the request process to include all the drugs listed in Column A.

Drugs in regimen (generic)	Regimen Abbrev.	Other versions
brentuximab vedotin, doxorubicin, vinblastine and dacarbazine	AAVD	
doxorubicin, bleomycin, vinblastine and dacarbazine	ABVD	
doxorubicin, vinblastine and dacarbazine	AVD	
bleomycin, etoposide and cisplatin	BEP	
bevacizumab, capecitabine and oxaliplatin	Bev capeox	
bevacizumab, fluorouracil, leucovorin and oxaliplatin	Bev FOLFOX	
bendamustine and rituximab	BR	
cyclophosphamide, doxorubicin, vincristine	CAV	
cyclophosphamide, vincristine, prednisone	CVP	
cyclophosphamide, bortezomib and dexamethasone	CyBorD	cyborD dara Faspro
docetaxel, cisplatin, and fluorouracil	DCF (cis)	
daratumumab, lenalidomide and dexamethasone	DRd	DRd Faspro
daratumumab, bortezomib and dexamethasone	DVD	DVD Faspro
etoposide and cisplatin	EP	
etoposide, prednisone, vincristine, cyclophosphamide, doxorubicin	EPOCHR	
fluorouracil, leucovorin, and irinotecan +/- bevacizumab	FOLFIRI	FOLFIRI bev
fluorouracil, leucovorin, irinotecan and oxaliplatin +/- bevacizumab	FOLFIRINOX	FOLFIRINOX bev
fluorouracil, leucovorin, oxaliplatin and nivolumab	FOLFOX nivo	
fluorouracil, leucovorin, oxaliplatin and pembrolizumab	FOLFOX pembro	
fluorouracil and leucovorin +/- bevacizumab	FULV	FULV bev
gemcitabine, dexamethasone, carboplatin and rituximab	GDP (carbo) R	
gemcitabine, dexamethasone, cisplatin and rituximab	GDP (cis) R	
cyclophosphamide, vincristine, doxorubicin, dexamethasone and rituximab	HyperCVADR	
carfilzomib, dexamethasone, daratumumab	KdD	KdD Faspro
carfilzomib, lenalidomide and dexamethasone	KRd	
methotrexate, vinblastine, doxorubicin and cisplatin	MVAC	
pomalidomide, bortezomib and dexamethasone	PVd	
rituximab, cyclophosphamide, doxorubicin, vincristine and prednisone	RCHOP	
docetaxel, doxorubicin and cyclophosphamide	TAC	
paclitaxel, carboplatin and trastuzumab	Taxol CH	
docetaxel, trastuzumab, and pertuzumab	Taxotere HP	
docetaxel and cyclophosphamide	TC	
docetaxel, carboplatin and trastuzumab	TCH	
docetaxel, carboplatin, trastuzumab and pertuzumab	TCHP	TCHPhesgo
paclitaxel, trastuzumab and pertuzumab	THP	
bortezomib, lenalidomide, dexamethasone	VRd	
bortezomib, lenalidomide, dexamethasone, daratumumab	VRd dara	VRd dara Faspro
