

# How to register a Clinical Trial

Once you have successfully enrolled your patient with NCI-MATCH and have a National Clinical Trial (NCT) number and patient trial ID number, proceed to Carelon [ProviderPortal](#) to enter in a request for all the drugs included in the patient's treatment regimen.

On Step 5 of the request process, after selecting all the drugs included in the patient's regimen proceed with the following steps:

- Under the Register a Clinical Trial header, click **'Show'** link to expand the field

- Enter NCT Number and click **'Verify'**.
  - Messaging will display if an NCT number is valid or invalid
- If NCT number is not known, select **"I don't have the NCT Number"** check box
- User can enter the Face Page URL
- Click **'Continue'** to proceed
