

RE: myNEXUS® Partnering with Aetna Medicare Advantage Effective 7/1/2023

Dear Home Care Provider:

myNEXUS is excited to announce the expansion of our Aetna partnership in the state of **Florida effective July 1st, 2023**. myNEXUS is partnering with Aetna to manage their Medicare Advantage network, claims payment, and medical management program for home health services.

myNEXUS is a care and benefits management company working with payers and providers to manage and deliver home and community-based services more effectively. myNEXUS' goal is to improve health outcomes, reduce unnecessary hospital readmissions, and foster health and independence for members and their families living in your community.

We want to ensure the transition is as seamless as possible for the Aetna membership. myNEXUS would like to extend an invitation to your organization to apply for participation in the myNEXUS Home Health Agency (HHA) provider network.

As of July 1st, 2023, Home Health Agencies not directly contracted with myNEXUS will be considered out-of-network for Aetna Medicare Advantage plans. Aetna participating agreements will remain effective for all products and lines of business outside of the myNEXUS Medicare Advantage solution in Florida.

If you would like to learn more about how to become a contracted provider with myNEXUS, please contact us using one of the options below:

- By phone: 1-833-585-6262, option 6
